### CIA 'Who's Who' To Be Published In East Germany

BERLIN (UPI)—A book entitled "Who's Who in the CIA" will be published soon in East Germany, sources say. ✓

Western intelligence sources said yesterday they understood the book lists the names of about 3,500 persons, mostly Americans, described as working in the Western Hemisphere and in neutral countries.

The author, Julius Mader, contends all the people named are working for the Central Intelligence Agency. ✓

Most are said to be American consuls, attaches, businessmen and other individuals living in Latin America, Western Europe, Africa and the Middle East.

Mader, who lives in East Berlin, several years ago published a book on the West German intelligence service. Experts described the book as fairly accurate and suspected Mader of having close ties with the East German and Soviet intelligence services.
